CLAIMS PROCEDURE

The Owner shall immediately notify the nearest authorized Stahl distributor, or contact Stahl directly if there is an issue with a Product or Component that is covered under this Warranty. All warranty claims must be filed in writing and include dated proof of purchase from the Owner. If upon investigation, Stahl determines that a claim is covered under this Warranty, Stahl will, at its option, either refund the purchase price of, or cover the cost of labor and material to repair or replace the portion of the Product or Component that is not in compliance with the terms of this Warranty. All authorized repairs must be completed by an authorized Stahl distributor or a third party pre-approved in writing by Stahl. Following completion of the repair or replacement work, an invoice shall be submitted to Stahl for payment directly to the service provider. Stahl will not make repair or replacement payments directly to the Owner. Stahl reserves the right to inspect the Products or Components returned by the Owner under this Warranty to determine whether the alleged defect is covered. Inspection shall, at Stahl’s option, be performed at Stahl’s factory, or at such other reasonable place as may be designated by Stahl. In the event of such inspection, freight for returning Products or Components shall be paid by the Owner.

Unauthorized repair or replacement of a Product or Component prior to inspection by Stahl or without Stahl’s prior written approval for repair or replacement may void the Warranty.
