STAHL
TRUCK BODIES

The STAHL Challenger Elite® Truck Body – Rugged and versatile; engineered to allow various towing options while providing industry-leading compartment storage space.

Challenger Elite bodies are designed with these standard features that let you tow your trailer in style while protecting your tools and equipment from theft and the elements:

- Aluminum Overlays & Stone Guards
- LED Body Light Kit
- LED Work Lights
- Compartment trays with dividers
- Top Pak Compartments
- Tie Down Rings
- 2.5" Class V Receiver 15k tow cap./
2k tongue wt. (Elite 110 / Elite 134 only)
- Spring door holders

Constructed of heavy gauge Galvanneal steel with a black acrylic urethane finish over primer, Elite bodies are available with a wide array of optional equipment including gooseneck hitches, Off-Road (spring) mounting kits, compartment lighting, and more – so you can configure your Elite body to fit your specific application needs.

MORE STORAGE SPACE

The Challenger Elite provides 18%* more cubic storage space for tools and equipment than competitive models.

VERSATILITY AND SAVINGS

The Challenger Elite's versatile design allows the body to be mounted on most Chevy/GMC, Ford, or RAM chassis cab by simply swapping mounting kits. This design flexibility lets you address multiple vehicle applications with less inventory

SPRING-MOUNTING FLEXIBILITY

The Challenger Elite can be spring-mounted using Stahl's optional Off-Road Mounting Kit – preventing damage to the body in rough off-pavement applications.

FASTER, EASIER TO MOUNT

The Challenger Elite is engineered to use the chassis OEM's mounting points – eliminating the need for frame drilling and shear plating – making it faster and easier to mount.

Elite body is painted with a durable black acrylic urethane. Compartment interiors are white to enhance visibility in low light.
